

IV Meeting ON DYNAMICS OF SOCIAL AND ECONOMIC SYSTEMS

SECOND ANNOUNCEMENT AND CALL FOR PAPERS

April 14-18, 2009

Hotel Libertador Pinamar, Argentina

Declared of Legislative Interest HCD Buenos Aires State

on April 30, 2008

***PLEASE SEND REGISTRATION FORM BEFORE January 20, 2009 IF
YOU APPLY FOR LOCAL SUPPORT***

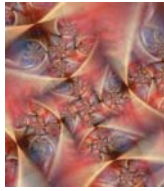

Final deadline for abstracts submissions February 28, 2009

SCOPE

The fourth International Workshop on Dynamics of Social and Economical Systems will be held in Pinamar (Hotel Pinamar, <http://www.hlpinamar.com.ar/>), Argentina, a nice seashore city 300 Km far from Buenos Aires, organized by Asociacion Dyses, the Laboratorio de Sistemas Complejos (www.fi.uba.ar/laboratorios/lsc) and the Laboratorio de Sistemas Inteligentes, Facultad de Ingenieria-UBA, and the GECSI, Grupo de Estudio de la Complejidad Social en la Sociedad de la Informacion, Facultad de Ciencias Juridicas y Sociales-UNLP.

The primary aim of this meeting is to bring together scientists working on the development of models able to prospect and to evaluate social and economical situations to future. Mathematical techniques include, but are not limited to, temporary series of prediction, time series forecasting, inference procedures, stochastic and/or dynamic systems, modeling of biological systems, optimization, develop of computational and knowledge-model based representations of human, organizational, cultural, and societal structures, and any other method able to predict future behavior of these particular systems are welcome. The main purpose is to contribute in the processes of decision-making and to assess socioeconomic decisions. Approaches to the legal frame more adequate to grant peaceful interactions among individuals, societies, countries, as well as, criteria of confidence of prognosis, decision and uncertainty will be also analyzed into the Information Society (IS) and the Knowledge Society (KS) contexts. Scientists from different areas such as mathematics, physics, social sciences, economy, law, biology, informatics, are invited to participate, as well as people working on social inequality, social welfare, collective tendencies, cognition and economy, among others. **Selected papers will be published as Proceedings of the IV Dyses Meeting as a special issue in the Advances and Applications in Statistical Sciences** <http://www.mililink.com>.
